Our Corporate Capabilities - Kate Marshall Graphics, Inc. has over 18 years experience in multimedia design including video production and post-production, hardcopy graphics and still photography. We provide broadcast video at very affordable prices and we simplify complicated concepts by using Video, 2-D and 3-D graphics for the web or DVD format. We specialize in how-to, demonstrational, promotional, educational, interview, training, educational and all other types of video for all industries. We combine great camera work with terrific editing and music for that special project.

What Sets Us Apart From the Crowd – See the movie previews we created at <http://www.covebear.com/index.htm>

We don't just edit video – we combine technical expertise with an artist's eye. Your video will be a one of a kind piece of art in motion. You can trust us to pay attention to the tiniest detail and deliver to you a great production.
